

We are excited to announce that The Mississippi Department of Education, through the Office of Federal Programs, has selected Columbus Housing Authority's Seasons of Success After School and Summer Programs to receive funding for the 21st Century Community Learning Centers Grant. Seasons of Success has been specifically designed to assist students who are occupants of Columbus Housing Authority's housing units to achieve grade-level learning proficiencies and other non-academic achievements, by providing resources, activities, and Multi-Tiered System of Supports (MTSS) to one hundred Columbus Municipal School District students in grades 2 - 5. The goals and intended outcomes for students who attend Seasons of Success are to (1) improve academic achievement by providing homework assistance, remediation and interventions in reading and math; (2) improve non-academic achievement in the areas of financial literacy, attendance, behavior, physical fitness and college and career awareness (3) improve or increase family partnerships and engagement. Additionally, the program will focus on character education, Social and Emotional Learning, bullying, and drug prevention. During the month of June, we will incorporate STEM activities, fieldtrips and other outdoor activities including swimming.
